

LOOKING TO OFFLOAD SOME STRUCTURAL STAMPINGS?

Send your production stampings our way.

Majestic Industries, a Tooling Tech Group company, has capacity to run production stampings for a variety of structural parts such as brackets, frames, pillars, seatings, skid plates, valve covers, and more.

- Die Size: 48" – 280"
- Materials: CR steel, HR steel, galvanized, stainless, aluminum, advanced high strength steels (AHSS)
- Presses: 800 to 2,750 tons
- Coil Stock: up to 72" width, 5mm thick
- IATF 16949 certified

Our stamping presses range from 800 – 2,750 tons with tonnage monitors and in-die sensors to ensure all parts are running at optimal efficiency and the highest quality.

Additionally, Majestic Industries is your one-stop shop for low-cost country (LCC) die sourcing needs. From die design to buy-off, we have you covered throughout the entire build process utilizing well-established OEM-approved LCC die manufacturers. Whether it's a single die build or a large sourcing package, Majestic will deliver a quality die on time, every time.

COMPANY OVERVIEW

Founded in 1980, Majestic Industries is a leader and innovator of progressive and transfer stamping dies for the automotive and consumer industries offering design, build, try-out, and repair, as well as production runs. The company was purchased in 2015 by Tooling Tech Group (TTG), founded in 1982.

Tooling Tech Group builds custom automated systems for assembly, joining and inspection as well as tooling for a variety of applications including thermoform molding, high compression composite molding, blow molding, rotational molding, die casting, and stamping. Industries served include automotive, appliance, lawn and garden, agricultural, aerospace, marine, and off-road vehicle industries, among others. Through organic growth and acquisitions, the company has become the largest tooling provider in the United States with 650+ employees, 13 modern facilities and over 1 million square feet of manufacturing space across four states.

The depth and breadth of our capabilities is achieved through the combined experience of our company units, with each of these companies being in business for 30+ years, providing both extensive industry experience and financial stability that you can rely upon. Our unique differentiator is the ability to provide all tooling services from design to engineering to simulation to machining to fabrication to try-out all within one company. This single source ability can help to streamline your business operations and simplify your life. We take full responsibility for quality, delivery, and cost management of each project starting at concept through “on time, every time” delivery.
